

Contact Rubber **DURAGRIP**

Puller / Haul off Belts

Rubber Compound Specifically Designed for the Extrusion Industry

The **DURAGRIP** Advantage:

- Maximum GRIP (High Coefficient of Friction)
- Excellent Abrasion Resistance
- Non Marking

Properties	DURAGRIP	EPDM	Pure Gum
Tensile P.S.I	3300	2100	3200
Elongation %	650	570	610
Temperature (°F)	250	320	175
abrasion (g/1000 rev)	0.187	0.230	0.710

DURAGRIP was specifically designed to meet the needs of plastic extruders. Our clients are known to serve a variety of industries such as **tubing/piping, windows and doors, decking, fencing and many more**. The **DURAGRIP** blend will improve your wear resistance while maximizing your grip. The overall performance of **DURAGRIP** belts is second to none.

DURAGRIP belts are:
SEAMLESS, VULCANIZED, and MULTIDIRECTIONAL
